Project ARIZONA
Organizing Committee

To Whom It May Concern,

I'm writing this letter in favor on behalf of Claudia Andrea Hernández Falcón, a remarkable student of International Business, she has shown as an excellent student and in the time that she has been working in projects at the University (Instituto Politécnico Nacional ESCA Tepepan) as a General Secretary of our UN Model or as an orator in other activities. I have seen her dedication, innovation, perseverance and passion for the general community improvement.

Her academic knowledge in International Business and her interest in Mexican politics renders her fit to participate in these kind of activities, as an example, she had represented the University (Instituto Politécnico Nacional ESCA Tepepan) at the "National Incubator of Youth Legislators", "Young Diplomats Forum" and "The International Political Science Association" is clear to me that she has knowledge about Mexican economic and political context.

I can recommend Claudia with the utmost confidence to participate in this project, I know she will make an excellent roll in Arizona and she will represent Mexico and the "Instituto Politécnico Nacional" in the best possible way.

Sincerely,

Silvia Galicia Villanueva
